9.3 Team of investment specialists

ACM has a dynamic team of investment professionals to assist them in delivering quality service to their clients. The investment specialist who will be dedicated to the Fund and carry out the duties of the CIS Manager as per the Securities Act 2005 and the Securities (Collective Investment Schemes and Closed-end Funds) Regulations 2008 is:

Murvyn Kumar Mungur, SENIOR INVESTMENT MANAGER

Murvyn holds an undergraduate degree with a major in Economics from the University of Cape Town, with more than 10 years' experience in the local financial services industry and has joined Afrasia Capital Management Ltd as a Senior Fund Manager. Murvyn started his professional career, initially as an analyst and later on as part of the fund management team looking after the numerous clients including high net worth individuals, pension funds, and collective investment schemes at SBMMAM, the asset management arm of the SBM Group. After almost 5 years there, he switched to Bank One Ltd as Portfolio Manager in the Private Banking team. Halfway through his 6 years at Bank One Ltd, he took on the challenge of becoming a Relationship Manager in the Private Banking & Wealth Management Department and enhanced his knowledge of the Bank of Mauritius credit requirements/guidelines along with assisting in the setting up of the company's global custody business. The Senior Investment Manager is assisted by a team of dedicated professionals specialized in the day-to-day operations related to the Fund.

9.4 Termination of agreement

Under the terms and conditions of the Investment Management agreement between the Manager and the Fund, the Fund may terminate the appointment of the Manager under the following conditions:

- (i) with the approval of the Directors at any time provided the required notice period as expressed in the Investment Management Agreement is given;
- (ii) with the approval of the Directors in the event of breach of its obligations provided the required notice period as expressed in the Investment Management Agreement is given; and
- (iii) at any time without any notice period if the Manager goes into liquidation (as per conditions in the Investment Management Agreement); if the operation of the Fund becomes illegal or in the event of fraud or gross negligence by the Manager.

D: Investment Objectives, Practices and Financial Characteristics

10. Investment Objectives and Practices

10.1 Investment objective

The investment objective of the Fund is to seek long term capital growth from an actively managed portfolio of equity across all market capitalizations, including small, mid and large cap stocks, equity related securities like convertible and non-convertible bonds/debentures of companies and fixed income securities available in the Indian market.

10.2 Investment approach and allocation

The Manager aims to achieve the investment objective of the Fund through the following approach:

- (a) adopting a top-down investment strategy;
- (b) anticipating changing market conditions and tactically allocating the Fund's assets to stocks, bonds, structured products or cash equivalents in response to these changes. This flexibility to adjust its asset mix provides the Fund with the potential to achieve its objectives over the medium to long-term with less volatility;
- (c) if a prolonged downturn is anticipated in the equity markets, the Manager will have the discretion to move the Fund's assets substantially into fixed-income instruments, structured products or cash. Derivatives could also be employed to tactically manage the portfolio risk; and
- (d) not limiting investment to any asset classes or to any sectors.

11. Benchmark

The Benchmark for the Fund is the BSE 200 (\$). The Manager may from time to time change the benchmark with the approval of the Board.

12. Investment Horizon and Risk Profile

The Fund's investment strategy has an investment horizon of 3 to 5 years and is targeted towards investors with a moderate to high risk profile.

13. Distribution Policy

The Fund does not intend to make any distribution, otherwise than by way of redemption of the Participating Shares.

E: Conditions of Operations

14. Share Capital

14.1 Allotment and issue of shares

The Board will issue Participating Shares and Management Shares as it may determine from time to time in accordance with the Constitution of the Fund.

14.2 Participating Shares

The Participating Shares shall be issued at a price to be determined in accordance with the Constitution and shall confer upon the Investors in such Participating Shares the rights set out in the section 14.3 and the rights of Participating Shares shall otherwise be in accordance with the provisions of this Constitution. No Shares shall be issued unless they are fully paid up.

The Directors may from time to time establish separate Classes of Participating Shares of the Fund in accordance with the Constitution.

(i) Retail Class Share

The Retail Class Shares shall be issued at a price to be determined in accordance with this Listing Particulars and the Constitution of the Fund and shall confer upon the Investors in such Retail Class the rights set out in this paragraph 14.3. The rights of the Retail Class Shares shall otherwise be in accordance with the provisions of the Constitution concerning Participating Shares. No Retail Class Shares shall be issued unless they are fully paid up. Subscriptions for Retail Class Shares may be made in USD.

Save for the rights set out in this paragraph 14.3 and in the Constitution, the holders of Retail Class Shares shall have no other rights; in particular the holders of Retail Class Shares shall have no right to vote on any resolution concerning the Fund.

(ii) Institutional Class Share

The Institutional Class Shares shall be issued at a price to be determined in accordance with this Listing Particulars and the Constitution of the Fund and shall confer upon the Investors in such Institutional Class the rights set out in this paragraph 14.3. The rights of the Institutional Class Shares shall otherwise be in accordance with the provisions of the Constitution concerning Participating Shares. No Institutional Class Shares shall be issued unless they are fully paid up. Subscriptions for Institutional Class Shares may be made in USD.

Save for the rights set out in this paragraph 14.3 and in the Constitution, the holders of Institutional Class Shares shall have no other rights; in particular the holders of Institutional Class Shares shall have no right to vote on any resolution concerning the Fund.

14.3 Rights of holders of Participating Shares

All Participating Shares issued by the Fund confer on the holders of those Shares the right to:

- (i) redeem the Participating Shares in accordance with the Constitution;
- (ii) receive notices, reports and accounts and to attend general meetings of the Fund; and
- (iii) vote on a proposal to wind up the Fund.

14.4 Management Shares

Management Shares shall be issued to the Manager and shall have the rights set out in the Constitution. No Management Shares shall at any time be held otherwise than by the Manager or such other person nominated by the Manager and approved by the Board.

15. Calculation of Net Asset Value

- (a) The Net Asset Value of the Retail Class Share and the Institutional Class Share shall be calculated separately and determined on every Valuation Day and, in any case, not less than once every week. The Net Asset Value shall be based on the Gross Asset Value as defined in section 15(c) less gross liabilities as defined in section 15(e) less expenses which would consist of charges or claims of any and every kind and nature, fixed, accrued, unmatured or contingent, including without limitation, the estimated accrued expenses of the Investment Manager, the Fund Administrator and the Custodian and any provisions or charges for any or all of the foregoing, whether for taxes, expenses, contingencies or otherwise.
- (b) The assets of the Fund shall be deemed to include:
- (i) all cash in hand, on loan or on deposit, or on call including any interest accrued thereon;
 - (ii) all bills, demand notes, promissory notes and accounts receivable;
 - (iii) all bonds, time notes, shares, stocks, debentures, debenture stock, subscription rights, warrants, options and other investments and securities owned or contracted for by the Fund other than rights and securities issued by it;
 - (iv) all stock and cash dividends and cash distributions to be received by the Fund and not yet received by it but declared payable to stockholders of record on a date on or before the day as of which the Net Asset Value is being determined;
 - (v) all interest accrued on any interest-bearing securities owned by the Fund except to the extent that the same is included or reflected in the principal value of such security;
 - (vi) all other Investments;
 - (vii) all expenses relating to the Fund in so far as the same have not been written off, except for management and performance fees; and
 - (viii) all other assets of every kind and nature including prepaid expenses as valued and defined from time to time by the Board.
- (c) The Gross Asset Value shall be valued as follows:
- (i) securities traded on a stock exchange or other regulated market are to be valued generally at the latest closing price quoted on the relevant exchange or market on or before the day preceding the relevant Valuation Day;
 - (ii) unlisted equity securities will be valued initially at cost and thereafter with any reduction or increase in value (as the case may be) as the Board shall in its absolute discretion deem appropriate in the light of the circumstances;
 - (iii) unlisted securities (other than equities) for which there is an ascertainable market value are to be valued generally at the last known price dealt on the market on which the securities are traded on or before the day preceding the relevant Valuation Day;
 - (iv) unlisted securities (other than equities) for which there is no ascertainable market value will be valued at cost plus interest (if any) accrued from purchase to (but excluding) the relevant Valuation Day plus or minus the premium or discount (if any) from par value written off over the life of the security;
 - (v) any value otherwise than in US dollars shall be converted into US dollars at the market rate;

- (vi) the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest accrued and not yet received shall be deemed to be the full amount thereof, unless it is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such deduction or discount as the Board may consider appropriate to reflect the true value thereof;
 - (vii) the value of preference shares or other security in any preference share trust, mutual fund, investment corporation, or other similar investment vehicle or collective investment scheme shall be derived from the last prices published by the managers thereof on or before the day preceding the relevant Valuation Day;
 - (viii) notwithstanding the foregoing, the Board may, in its absolute discretion, permit some other method of valuation to be used if they consider that such valuation better reflects the fair value; and
 - (ix) for the purpose of valuing the Fund's assets as aforesaid the Board may rely upon the opinions of any persons who appear to them to be competent to value assets of the Fund by reason of any appropriate professional qualification or of experience of any relevant market.
- (d) Notwithstanding the foregoing, where at the time of any valuation any asset of the Fund has been realised or contracted to be realised there shall be included in the assets of the Fund in place of such asset the net amount receivable by the Fund in respect hereof PROVIDED THAT if such amount receivable is not payable until some future time after the time of any valuation the Board may make such allowance as it considers appropriate.
- (e) The gross liabilities of the Fund shall be deemed to include all its liabilities and such provisions and allowances for contingencies (including tax) payable by the Fund but not liabilities represented by Participating Shares in the Fund. In determining the amount of such liabilities the Board may calculate any liabilities of a regular or recurring nature on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any such period.
- (f) The Net Asset Value per Participating Share shall be calculated by dividing the Net Asset Value by the number of Participating Shares in issue.
- (g) Any calculations made pursuant to this Listing Particulars shall be made by or on behalf of the Board and shall (except in the case of manifest error) be binding on all persons.

16. Fees and Charges

16.1 The following are the fees and charges payable in relation to the Fund:

Fees payable by Investors

Performance Fee	Retail Class – 20% of the class's outperformance over the benchmark on an annual basis subject to a high watermark, since inception Institutional Class – 20% of the class's outperformance over the benchmark on an annual basis subject to a high watermark, since inception

- 16.2 The Initial Charge and the Redemption Charge (if any) will be retained by the Manager for their own benefit. Any rounding adjustments arising from calculating the price of Shares will be credited to the Fund. Any commission, remuneration or other sum payable to agents in respect of the issue or sale of any Shares will not be added to the price of such Shares but will be paid by the Manager.
- 16.3 The Manager may at any time differentiate between investors as to the amount of the Initial Charge and the Redemption Charge payable (subject to the maximum permitted under the Constitution) or allow discounts on such basis or on such scale as the Manager may deem fit.
- 16.4 All marketing, promotional and advertising expenses in relation to the Fund will be borne by the Manager and will not be charged to the Fund.
- 16.5 The Manager may charge for any additional expenses incurred where investors are resident outside Mauritius and to deduct such additional amounts from the subscription moneys paid by such investors or the realization proceeds due to them, as the case may be.
- 16.6 Expense ratio
The following expenses are excluded from the calculation of the expense ratio:

- (a) brokerage and other transaction costs associated with the purchase and sales of investments;
- (b) foreign exchange gains and losses, whether realised or unrealised;
- (c) front or back-end loads arising from the purchase or sale of a foreign preference share trust or a mutual fund of underlying investments;
- (d) tax deducted at source or arising from Income received, including withholding tax;
- (e) interest expense; and
- (f) dividends and other distributions paid to Investors (where applicable).

17. Trading Cycle

Participating shares in the Fund may be purchased or redeemed on every Dealing Day at the Issue Price and Redemption Price respectively as defined in this Listing Particulars.

18. Subscription and Issue of Shares

18.1 Application for Shares

Investors may apply for Shares by completing an application form obtainable from the Manager or their authorized distributors and submitting the completed application form to the Manager at their address stated at paragraph 4.1 or through their distributors. The application for Shares must be accompanied by such documents as may be required by the Manager set out in the notes to the application form, and the subscription monies in full. Investors may pay for Shares by cheque, cashier's order, Telegraphic Transfer /Telex Transfer or bank draft.

18.2 The Minimum Initial Investment Sum and Minimum Subsequent Investment Sum

The Minimum Initial Investment Sum and Minimum Subsequent Investment Sum of the Fund are listed below (or such other amount as the Manager may determine):

- **Minimum Initial Investment**
Retail Class: USD 5,000
Institutional Class: USD 1,000,000

- **Minimum Subsequent Investment**

Retail Class: USD 1,000
Institutional Class: USD 100,000

18.3 Dealing Deadline and Basis for Pricing

The dealing deadline is 4.00 p.m. Mauritian time on the business day, one (1) day prior to each Dealing Day.

18.4 Allotment of Shares to an investor

The number of Shares allotted to an investor will be calculated once the Issue Price has been ascertained.

The Manager may from time to time give a discount or discounts on the Issue Price payable by an investor by varying the amount of the Initial Charge. The Manager reserves the right to differentiate between investors as to the quantum of discount or discounts given to them provided that no such discount shall exceed the Initial Charge.

18.5 Confirmation of purchase

A subscription confirmation note will be sent to investors within 10 Business Days of the receipt of the application by the Manager or any such day as may be determined by the Manager.

18.6 Minimum Fund Size

If on any date the Value of the fund is less than USD 1 million, the Board may terminate the Fund by giving at least 6 months' written notice to Investors.

18.7 Board's Discretion

The Board shall have the exclusive right to effect the creation and issue of Shares for the account of the Fund as provided in this Listing Particulars and the acceptance and non-acceptance of applications for Shares shall be at the absolute discretion of the Board acting in consultation with the Manager and in the best interest of the Fund. If any application is rejected by the Board, the subscription monies will be refunded (without interest) to the applicant within a reasonable period of time and in such manner as the Manager in their absolute discretion may determine.

19. Regular Savings Plan

19.1 Minimum Contribution

An investor may, upon satisfying the Minimum Initial Investment Sum of USD 5,000 (for Retail Class) and USD 1,000,000 (for Institutional Class), apply to the Manager to participate in a Regular Savings Plan ("RSP") with a minimum contribution of USD 1,000 (for Retail Class) and USD 100,000 (for Institutional Class) on a monthly basis or at periodic intervals as the Manager may from time to time determine.

19.2 Direct Debit Authorisation (Regular Savings Plan)

Investors who wish to participate in the RSP must complete the relevant sections of the application form which provide for the RSP. The procedures to enable the direct debit authorisation ("DDA") for the payment in the RSP should be undertaken by the investors with their respective banks. The Fund and/or the CIS Manager will not be liable for any loss that the investors may suffer in relation to the DDA. The monthly contribution for the RSP will be deducted from the investor's relevant bank account as authorised in the DDA. The debit date will be on the Dealing Deadline pertaining to each Dealing Day and the investment will be made on the corresponding Dealing Day.

19.3 Termination of RSP Arrangements

An investor may cease his participation in the RSP without penalty by giving not less than one month's prior written notice to the Manager.

20. Redemption of Shares

20.1 Redemption Procedure

Subject to the Minimum Holding requirement, any Investor may in writing request the Manager to repurchase all or any of the Shares which he holds by completing and submitting to the Manager a Redemption Notice form to request the repurchase.

With a view to protecting the interest of Investors, the Manager may, in certain instances stipulated in the Constitution, limit the total number of shares which Investors may redeem on any Dealing Day to ten per cent of the total number of shares then in issue. If so, requests for redemption of shares on such Dealing Day will be reduced rateably and be treated as if made in respect of each subsequent Dealing Day until all shares in the Fund to which the original request related have been redeemed.

20.2 Effective Dealing Day and Redemption Notice

The effective Dealing Day of a request for redemption will be the Dealing Day following the receiving by the Fund or its duly authorised agent a duly signed Redemption Notice with all requisite documents and information prior to 4.00 p.m. Mauritius time on that day, provided that the Redemption Notice has been received no less than one (1) business day prior to that Dealing Day; unless the redemption of Shares has been suspended in accordance with paragraph 24 of this Listing Particulars. In the case that the Redemption Notice is received less than one (1) business day prior to a Dealing Day, the effective Dealing Day will be the Dealing Day following that Dealing Day.

20.3 Minimum Holding

An Investor will not be entitled to redeem only part of his holding of Shares without the approval of the Manager if due to such redemption; his holding would be reduced to less than the Minimum Holding. The Minimum Holding is the number of Shares which may be purchased for USD 5,000 for Retail Class and USD 1,000,000 for Institutional Class at the current Issue Price. There is no minimum redemption amount.

20.4 Basis for Pricing

As Shares are priced on a forward pricing basis, the Redemption Price of Shares will not be available at the time of submission of the redemption form. The Redemption Price for the effective Dealing Day of the request for redemption will apply.

20.5 Redemption Proceeds

Redemption Proceeds (the "Redemption Proceeds") will be calculated to be the product of the number of Participating shares redeemed and the Redemption Price where the Redemption Price is given by the Net Asset Value per Participating share less the Redemption Charge as per determined by the Manager. The Manager is entitled to further deduct a Transactions Adjustment, if any.

20.6 Payment of Redemption Proceeds

(a) Subject to the approval of the Manager, the Fund Administrator shall within 10 Business Days after the Dealing Day on which the request for redemption has been effected pay

to Investors the Redemption Proceeds. If in exceptional circumstances it is not possible to make the payment within the relevant period, then such payment shall be made as soon as reasonably practicable. In addition, different settlement periods may apply if settlement is made via local correspondent banks, paying agents or other agents. Redemption Proceeds less applicable bank charges will be paid in the base currency of the relevant Class of shares.

- (b) Redemption proceeds will be paid by telegraphic transfer to a nominated bank account, or by crossed cheque sent by ordinary post.
- (c) If an Investor is resident outside Mauritius, the Fund may deduct an amount equal to the excess of the expenses actually incurred over the amount of expenses which would have been incurred if the Investor had been resident in Mauritius.

21. Transfer of Shares

All transfer of Shares shall be effected in accordance with the provisions of the Constitution. According to these provisions, no Shares may be transferred without the prior written consent of the Board. The transfer form should be sent to the Board and should contain all necessary information concerning the transferor and transferee. The transferee should abide by the rules and conditions of subscription in the Fund.

22. Pledging of Shares

No Shares may be pledged without the prior written consent of the Fund. The Investor should inform the Fund of its intention to pledge its Shares and seek approval accordingly. Upon approval, the Fund shall inform the registrar of such pledge.

23. Obtaining Prices of Shares

The Net Asset Value per share or issue/redemption prices will be published within 5 business days after the relevant Valuation Day on the website of the Manager and are also obtainable from the Fund Administrator's registered office.

24. Suspension of Valuation/Dealings

The Board is empowered, subject to the CIS Regulations and to the prior approval of the SEM, to suspend the calculation of the Share value of the Fund, the issue of Shares, or the right of Investors to require the redemption of Shares:

- (i) during any period when any market in which a material proportion of the investments for the time being constituting the Deposited Property are listed or dealt in is closed otherwise than for ordinary holidays;
- (ii) during any period when dealings on any such market are restricted or suspended;
- (iii) during any period when, in the opinion of the Board, there exists any state of affairs as a result of which withdrawal of deposits held for the account of the Fund or the realisation of any material proportion of the investments for the time being constituting the Deposited Property cannot be effected normally or without seriously prejudicing the interests of Investors as a whole;
- (iv) during any period where there is, in the opinion of the Board, any breakdown in the means of communication normally employed in determining the Value of any of the investments

or the amount of any cash for the time being comprised in the Deposited Property, or the amount of any liability of the Custodian for the account of the Fund or when for any other reason the Value of any such investment or the amount of any such cash or liability cannot be promptly and accurately ascertained;

- (v) during any period when, in the opinion of the Board, the transfer of funds which will or may be involved in the redemption of any material proportion of the investments for the time being constituting the Deposited Property cannot be effected promptly at normal rates of exchange;
- (vi) for 48 hours (or such longer period as the Board may agree) prior to the date of any meeting of Investors (or any adjourned meeting thereof) convened in accordance with the Constitution; or
- (vii) for any period pursuant to an order or direction by the FSC.

For the purposes of this section, "material proportion" means such proportion of the investments which when sold would in the opinion of the Manager cause the net asset value of the Deposited Property to be significantly reduced.

Any payment for any Shares redeemed before the commencement of any suspension but for which payment has not been made before its commencement may, if the Manager agrees, be deferred until immediately after the end of the suspension.

F: Risk Factors

25. General

- 25.1 The Fund cannot guarantee the accuracy of facts, forecasts and other statistics with respect to India, the Indian economy, the Indian securities industry and the selected Indian regional data contained in this Listing Particulars.

Facts, forecasts and other statistics in this Listing Particulars relating to India, the Indian economy, the Indian real estate industry and the selected Indian regional data have been derived from various official or other publications available in India and may not be consistent with other information compiled within or outside India. The Fund cannot guarantee the quality or reliability of such source materials. They have not been prepared or independently verified by us, the Initial Purchasers or any of our or their affiliates or advisors (including legal advisors), or other participants in this offering and, therefore, the Fund makes no representation as to the accuracy of such facts, forecasts and statistics. The Fund has, however, taken reasonable care in the reproduction and/or extraction of the official and other publications for the purpose of disclosure in this Listing Particulars. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice, these facts, forecasts and statistics in this Listing Particulars may be inaccurate or may not be comparable to facts, forecasts and statistics produced with respect to other economies. Further, there can be no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as in other jurisdictions. Therefore, you should not unduly rely upon the facts, forecasts and statistics with respect to India, the Indian economy, the Indian real estate industry and the selected Indian regional data contained in this Listing Particulars.

25.2 The Shares may not be a suitable investment for all investors

Each potential investor in the Shares must determine the suitability of that investment in the light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and expertise to make a meaningful evaluation of the Shares, the merit and risks of investing in the Shares and the information contained or incorporated by reference in this Listing Particulars;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Shares and the impact the Shares will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all the risks of an investment in the Shares, including Shares with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Shares and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

25.3 The Fund may not be able to redeem the Shares.

Investors have the right to redeem the Shares under the Listing Particulars. The source of funds for any such redemption would be the Fund's available cash or third-party financing. However, the Fund may not have sufficient available funds at the time of the occurrence of any request for redemption to make such redemptions.

25.4 Investing Risk

The type of investments that the Fund anticipates making involves a high degree of risk. In general, financial and operating risks confronting portfolio companies can be significant. While targeted returns should reflect the perceived level of risk in any investment situation, there can be no assurance that the Fund will be adequately compensated for risks taken. A loss of principal is possible. The timing of profit realization is highly uncertain. Losses are likely to occur early, while successes often require a long maturation. Investments in fast growing companies involve substantial risks. These companies typically have obtained capital in the form of debt and/or equity to expand rapidly, reorganize operations, acquire a business or develop new products and markets. These activities by definition involve a substantial amount of change in a company and could give rise to significant problems in sales, manufacturing and general management of these activities. Early-stage and development-stage companies often experience unexpected problems in the areas of product development, manufacturing, marketing, financing and general management, which, in some cases, cannot be adequately solved. In addition, such companies may require substantial amounts of financing which may not be available through institutional private placements or the public markets. The percentage of companies that survive and prosper may be small.

25.5 General Economic Risks

General macro-economic conditions, such as interest rates, the availability of alternate sources of financing and participation by other categories of investors may impact the Fund's

level of success, including the value and the number of investments made by the Fund. The securities of a portfolio company may be affected by uncertainties such as changes in governmental policies, taxation, restrictions on foreign investment, other laws and regulations and currency fluctuations.

25.6 Difficulty of Locating Suitable Investments

The Fund has not committed to specific investment opportunities, and prospective investors will not have an opportunity to review the Fund's proposed investments before deciding whether to invest in the Fund. A purchaser of Participating Shares in the Fund must rely upon the ability of the Manager to identify, structure and implement investments consistent with the Fund's investment objectives and strategies. There can be no assurance that there will be a sufficient number of suitable investment opportunities to enable the Fund to invest all of its committed capital in opportunities that satisfy the Fund's investment objectives, or that such investment opportunities will lead to completed investments by the Fund.

Identification of attractive investment opportunities is difficult and involves a high degree of uncertainty. The Fund will compete for the acquisition of investments with many other investors, some of which will have greater resources than the Fund. Such competitors may include other investment funds, as well as individuals, financial institutions and other institutional and strategic investors. As a result of this competition, there may be fewer attractively-priced investment opportunities than anticipated and the Manager might not be able to identify and successfully close a sufficient number of high-quality investments to utilize all of the Fund's capital. Such competition may adversely impact the length of time required to fully invest the Fund's capital. No assurance can be given that the Fund will be successful in identifying or consummating economically attractive investments.

25.7 Expedited Transactions

Investment analyses and decisions by the Manager may be undertaken on an expedited basis in order for the Fund to take advantage of available investment opportunities. In such cases, the information available to the Manager at the time of an investment decision may be limited, and the Manager may not have access to the detailed information necessary for a full evaluation of the investment opportunity. Further, the Fund may conduct its due diligence activities in a very brief period and may assume the risks of obtaining certain consents or waivers under contractual obligations. While the Fund expects to negotiate purchase price adjustments, termination rights and other protections, such rights may not be available or, if available, the Fund may elect not to exercise them.

25.8 Reliance on the Fund and the Manager

The success of the Fund will depend on the ability of the Manager to identify and consummate suitable investments, to improve the operating performance of portfolio companies and to dispose of investments of the Fund at a profit.

25.9 U.S. Dollar Denomination of Participating Shares

The Participating Shares are denominated in Dollars. Investors subscribing for Participating Shares in any country in which Dollars are not the local currency should note that changes in the value of exchange between Dollars and such currency may have an adverse effect on the value, price or income of the investment to such investor. There may be foreign exchange regulations applicable to investments in foreign currencies in certain jurisdictions. Each

prospective investor should consult with his or her own counsel and advisors as to all legal, tax, financial and related matters concerning an investment in the Participating Shares.

25.10 Investment and Repatriation Restrictions; Regulatory Approvals

Foreign investment in securities of Indian companies is restricted or controlled to varying degrees and Fund investments may require the approval of the Reserve Bank of India ("RBI") and/or other governmental entities. In addition, the Fund may require the prior approval of the Foreign Investment Promotion Board of the Department of Economic Affairs, Ministry of Finance of the Government of India (the "Foreign Investment Promotion Board") and the RBI to invest beyond certain specified equity ceilings in certain Indian companies. While the Fund expects to obtain these governmental approvals in due course, the Fund cannot be certain that these approvals will be obtained in a timely manner or at all. Subsequent to this offering, if policy announcements or regulations are made which require retrospective changes in the structure or operations of the Fund, the performance of the Fund may be adversely affected.

These restrictions and requirements may at times limit or preclude foreign investment and increase the costs and expenses of Fund investments in Indian companies. The sale of securities by the Fund may require the approval of the RBI. In addition, such approval may be required to convert the proceeds from the sale of portfolio investments from the currency of investment into Dollars and to repatriate such amounts. While in some instances such approvals are routinely granted, in others, approval may be more difficult to obtain and may be granted only subject to certain conditions, if at all. While Indian regulation of foreign investment has been liberalized in recent years, there can be no assurance that the Fund will be able to obtain all the approvals necessary to implement its investment program fully. The sale of securities by the Fund to another entity which is non-resident in India may also require the prior approval of the RBI and other government entities. Investments by the Fund in Indian companies may also require the approval of the Foreign Investment Promotion Board.

25.11 Political, Legal, Social and Economic Considerations

The value of Fund investments may be adversely affected by potential political and social uncertainties in India. Certain developments, beyond the control of the Fund, such as the possibility of nationalization, expropriations, confiscatory taxation, political changes, government regulation, social instability, diplomatic disputes or other similar developments, could adversely affect Fund investments.

India is a country which is comprised of diverse religious and ethnic groups. It is the world's most populous democracy and has a well-developed political system. Ethnic issues and border disputes, however, have given rise to ongoing tension in the relations between India and Pakistan, particularly over the region of Kashmir, and among certain segments of the Indian population. Any exacerbation of such tensions could adversely affect economic conditions in India and consequently the value of Fund investments.

While fiscal and legislative reforms have led to economic liberalization and stabilization in India over the past 15 years, the possibility that these reforms may be halted or reversed could significantly and adversely affect the value of investments in India. Fund investments could also be adversely affected by changes in laws and regulations or the interpretation thereof, including those governing foreign investment, anti-inflationary measures, rates and methods of taxation, and restrictions on currency conversion, imports and sources of supplies.

Although India has experienced significant economic growth and is projected to undergo significant economic growth in the future, there can be no assurance that such growth will continue. Adverse economic conditions or stagnant economic development in India could adversely affect the value of Fund investments.

25.12 Accounting, Disclosure and Regulatory Standards

Accounting, financial and other reporting standards in India are not equivalent to those in more developed countries. Differences may arise in areas such as valuation of shares and other assets, accounting for depreciation, deferred taxation, inventory obsolescence, contingent liabilities and foreign exchange transactions. Accordingly, less information may be available to investors.

25.13 Exchange Rate Fluctuations

Investors will subscribe for Participating Shares of the Fund in Dollars. A number of investments may be in Indian rupees and there is the risk of depreciation of the Indian rupee vis-à-vis the Dollar, which would effectively reduce the return to investors. Investors will run a currency devaluation risk from the time investment funds are brought onshore into India or the jurisdiction in which the investee company is located via Mauritius to finance investments until the rupee or concerned currency repatriation of the Fund in Dollars following an investment's realization. With India expected to move towards full convertibility by introducing capital account convertibility, the rupee may experience volatility and may further depreciate.

25.14 Inflationary Pressures in India

Although inflation in India has been relatively modest over the last 10 years, there is no assurance that inflation rates will not increase. High inflation may lead to the adoption of corrective measures designed to moderate growth, regulate prices of staples and other commodities and otherwise contain inflation, and such measures could inhibit economic activity in India and thereby possibly adversely affect the value of Fund investments.

25.15 Governmental action

Governmental actions to control inflation and other regulations and policies have often involved, among other measures, increases in interest rates, changes in tax policies, price controls, currency devaluations, capital controls, limits on imports, import duties and other actions. The Fund's business, financial condition and results of operations may be adversely affected by changes in governmental policies or regulations involving or affecting:

- interest rates;
- monetary policy;
- exchange controls and restrictions on remittances of payments outside of the countries of operation;
- foreign direct investment;
- currency exchange rate fluctuations;
- inflation;
- social and political stability;
- price stability;
- liquidity of capital and financial markets;
- energy shortages;

- insurance and healthcare entitlement programs;
- environmental matters;
- fiscal and tax policies; and
- other political, social and economic developments.

Uncertainty over whether the government in any jurisdiction will implement changes in policies or regulations affecting the above or other factors in the future may adversely affect the Fund's business and results of operations.

26. Potential Conflicts of Interest

The Fund will be subject to various potential conflicts of interest arising from its relationship with the Manager, the Key Persons and their respective affiliates, which may result in decisions that do not fully reflect the Investors' best interests, including the following:

(i) Other Activities

Although the Key Persons will commit a significant amount of their business efforts to the Manager, the Key Persons are not required to devote all of their time to the Fund's affairs.

(ii) Allocation of Investment Opportunities

Any investment opportunity suitable for the Fund that is presented to the Manager or the Key Persons will be offered to the Fund, except for: (i) investment opportunities related to current holdings of the Manager or the Key Persons; (ii) investment opportunities required to be presented to any other investment fund permitted to be organized by the Key Persons or their affiliates; (iii) investment opportunities presented to the Key Persons in their capacity as directors of public or private companies and in similar circumstances where pre-existing fiduciary duties apply; and (iv) investments intended to protect or enhance the value of investments included in clauses (i) through (iii) above.

(iii) Other Similar Funds

The Manager or the Key Persons may act as the manager or the primary source of transactions on behalf of another pooled investment fund with overall objectives substantially similar to those of the Fund, provided that such pooled investment fund does not invest a substantial part of its funds in the same geographical region as that of the Fund.

(iv) Management Fees

The Management Fees payable by the Fund to the Manager have not been established on the basis of an arm's-length negotiation between the Fund and the Manager. However, the Fund believes that the Management Fees generally reflect prevailing market terms.

(v) Diverse Investors

The investors in the Fund are expected to include diverse non-U.S. investors that may have conflicting tax and other interests with respect to their investment in the Fund. In addition, the Manager and its affiliates and employees may invest directly in the Fund. As a result, conflicts of interest may arise in connection with decisions made by the Manager that may be more beneficial for one type of investor. In making decisions, the Manager

intends to consider the investment objectives of the Fund as a whole, and not the investment objectives of any Investor individually.

(vi) **Lack of Separate Representation**

The Manager or the Key Persons may be represented from time to time by the same legal counsel as the Fund, and may retain the same accountants and other experts. Counsel for the Fund does not represent the Investors. Should a dispute arise between the Fund and the Manager or the Key Persons, the Manager anticipates that it will retain separate counsel for the Fund in such a matter.

27. Standard risk factors

- (i) Investment in a collective investment scheme preference shares involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of capital;
- (ii) As price/value/interest rates of the securities in which the schemes invests fluctuates, the value of your investment in the scheme may go up or down;
- (iii) Past performance of the Sponsors/Investment Manager does not guarantee future performance of the scheme;
- (iv) The scheme is not guaranteed or assured return scheme;
- (v) The NAV of the scheme may be affected by changes in the general market conditions, factors and forces affecting capital markets, in particular, level of interest rates, various market related factors and trading volumes, settlement periods and transfer procedures. The NAV may go up as well as down.

28. Liquidity Risk

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of equity and equity related investments made by the scheme. This would cause the scheme to miss certain investment preference share and in some cases suffer losses while disposing some of its assets.

G: TAXATION

29. Taxation

The following summary of certain Mauritian tax consequences of the purchase, ownership and disposition of Shares is based upon applicable laws, regulations, rulings and decisions in effect as of the date of this Listing Particulars, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Shares and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Shares should consult their tax advisors concerning the tax consequences of the purchase, ownership and disposition of Shares, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Republic of Mauritius Taxation

The following is a discussion on certain Mauritian income tax consequences of an investment in the Shares. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Mauritian law.

The Fund holds a Global Business Licence issued under the Financial Services Act 2007 of Mauritius. The Fund is subject to tax at the rate of 15% on its net income.

Currently, no capital gains tax is payable in Mauritius in respect of the Fund's realised investments.

Dividends paid by the Fund are exempt from income tax in Mauritius. Accordingly, it is expected that no tax will be withheld on payments of dividends made by the Fund with respect to the Shares. Gains made by a holder of Shares on a sale or redemption of Shares will not be subject to any tax in Mauritius.

Levels and bases of taxation in Mauritius may change. The taxability of the income of the Fund will also be dependent upon the India-Mauritius Double Taxation Avoidance Agreement. Changes in tax regulations may impact the Fund's operations and profitability.

There can be no assurance that the abovementioned treaty will continue to be in full force and effect during the existence of the Fund or that the Fund will continue to enjoy the benefit of the tax treaty.

H: General Conditions and Good Governance

30. Conflicts of Interest

30.1 The Manager or the Custodian may own, dispose or otherwise deal with the Fund's investments shares as though they were not a party to the transaction. In the event of any conflict of interest arising as a result of such dealing, the Manager and the Custodian, following prior consultation with each other, will resolve any such conflict in a just and equitable manner as they deem fit.

30.2 The Manager and the Custodian will conduct all transactions for the Fund on an arm's length basis.

30.3 Associates of the Custodian may be engaged to offer financial, banking and brokerage services to the Fund, but these services will be provided on an arm's length basis.

31. Avoidance of Round Tripping

Round tripping, where money is routed back into the country by local investors through tax havens, is not regarded to serve any purpose apart from aiding in the evasion of tax. In addition to the stringent KYC practices, the investors will be requested to sign a declaration whereby they will be requested to certify that they are neither Indian Nationals nor Residents

as a mean of deterring Round Tripping of money by Indian residents who would be inclined to invest through the Fund.

32. Reports

Annual Reports, Annual Accounts, and Auditor's Report on the Annual Accounts

The financial year-end of the Fund is 30 June. The annual report is filed with the regulators within 3 months of the financial year-end (or such other period as may be permitted by the FSC) and communicated to Investors within 6 months of the financial year-end.

The annual report, annual accounts, and auditor's report will be published on the manager's website – www.afrasiacm.com. The abridged audited financial statements are published in one local newspaper.

Interim (Quarterly) Report

The interim (quarterly) report are prepared and published on a quarterly basis in one local newspaper.
